Thimerosal Neurotoxicity is Associated with Glutathione Depletion: Protection with Glutathione Precursors. Neurotoxicology, Jan 2005. S. Jill James, PhD [University of Arkansas].

Reduced Levels of Mercury in First Baby Haircuts of Autistic Children. International Journal of Toxicology, March 2003. Boyd Haley, PhD [University of Kentucky].

Thimerosal induces DNA breaks, Caspase-3 Activation, Membrane Damage, and Cell Death in Cultured Human Neurons and Fibroblasts. Toxicological Science, 2003. David S. Baskin, MD [Baylor College of Medicine].

Enterocolitis, Autism and Measles Virus. Molecular Psychiatry, 2002. Andrew J. Wakefield, MD [Royal Free & University College Medical School, London].

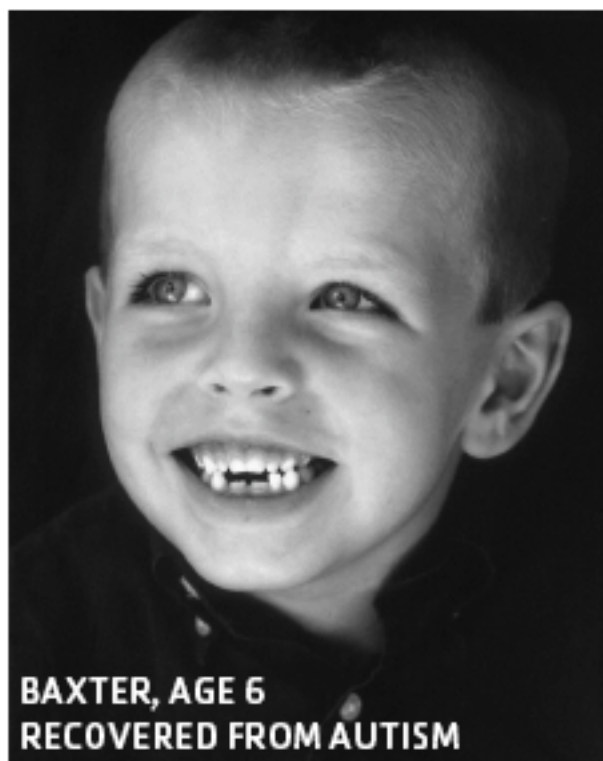

Retrograde Degeneration of Neurite Membrane Structural Integrity of Nerve Growth In Vitro Exposure to Mercury. NeuroReport, 2001. Christopher Leong, MD [University of Calgary].

Organic Mercury Compounds and Autoimmunity. Autoimmunity Review, 2005. Said Havarinasab, MD [Linkoping University].

Iatrogenic Exposure to Mercury After Hepatitis B Vaccination in Preterm Infants. Journal of Pediatrics, May 2000. Gregory V. Stajich, PharmD [Mercer University].

Mercury and autism: Accelerating Evidence? Neuroendocrinology Letters, Oct 2005. Joachim Mutter, M.D. [Freiburg University, Germany].

# For those of you who have done groundbreaking research on the connection between mercury and autism, we thank you for doing it for the best reason of all: **Baxter.**

**BAXTER, AGE 6  
RECOVERED FROM AUTISM**

Thanks to all your hard work and research, we're changing the way we see autism, ADHD, ADD, and other neurodevelopmental disorders. As the evidence connecting mercury poisoning and these disorders grows, there is new hope for both treatment and reversal. Thousands of children like Baxter have already been helped - millions more need our help and can benefit from your continued research. And for that, Baxter, his family, and thousands of parents and doctors offer our heartfelt thanks.

We would also like to thank the Governors of the six states who courageously signed into law bans on thimerosal (mercury) from being used in children's vaccines: California: Arnold Schwarzenegger (R), New York: George Pataki (R), Illinois: Rod Blagojevich (D), Iowa: Thomas Vilsack (D), Missouri: Matt Blunt (R), and Delaware: Ruth Ann Minner (D). Thank you for putting our children first.

## THANK YOU.
